This work requires sound professional judgment, specialized training, and a strong collaborative relationship with DCFS Child Protection Specialists and Intact Family Services staff.

The goal of every engagement is fourfold: keep children safe, prevent unnecessary out-of-home placement, stabilize families, and facilitate reunification when the time is right.

Safety Specialist job duties:

1. Impending Danger Plan Implementation & Management

- Implement and manage individualized impending danger plans within the home environment.
- Maintain frequent, consistent in-home contact with caregivers, children, and safety service providers, including availability during evening and weekend hours.
- Provide ongoing oversight of all safety services, monitoring caregiver-child interactions, home conditions, and family dynamics to ensure child safety is consistently maintained.
- Support caregivers in stress reduction and behavior modification.
- Must be willing and able to enter and work within high-risk home environments.

2. Resource Coordination & Support

- Identify, engage, and coordinate family network support and community resources.

- Connect families to resources for housing, food, transportation, employment, and healthcare, and ensure those resources are effectively utilized to support safety plan success.
- Arrange and support logistics including transportation, visitation, appointments, and service access.

3. Collaboration & Oversight

- Work closely with DCFS and private agency staff to ensure proper execution of impending danger plans.
- Provide real-time updates on safety concerns, compliance, and plan effectiveness.
- Participate in case staffing, planning meetings, and ongoing communication with all involved parties.

4. Behavioral & Crisis Intervention

- Provide direct behavioral management support, including coaching of caregiver-child interactions and implementation of de-escalation and stress-reduction strategies.
- Intervene in crisis situations to stabilize the home and maintain safety.
- Proactively put services in place to prevent crises before they occur.

5. Family Engagement & Support

- Build supportive, professional relationships with families to reduce isolation and foster trust.
- Provide hands-on parenting support, mentoring, and guidance related to household management and coping skills.
- Coordinate respite care, temporary caregiving arrangements, or structured separation when required for safety.

6. Documentation & Reporting

- Maintain accurate, timely, and detailed documentation of all services and observations.
- Track safety plan compliance and outcomes.
- Report concerns to DCFS and supervisory staff immediately.

Requirements

The **Safety Specialist** shall have:

1. A bachelor's degree in social work, human services, psychology, or related field required.
2. Relevant experience in child welfare, case management, family services, or crisis intervention; experience working with high-risk families preferred.
3. The ability to work effectively in high-stress, safety-sensitive situations involving child safety concerns.
